Gentlemen:

Insofar as this office is concerned, approval to drill the above referred to oil well is hereby granted in accordance with the Order issued in Cause No. 156-3 dated April 15, 1980.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

RONALD J. FIRTH - Chief Petroleum Engineer
Office: 533-5771
Home: 571-6068

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation in completing this form will be appreciated.

Further, it is requested that this Division be notified within 24 hours after drilling operations commence, and that the drilling contractor and rig number be identified.

The API number assigned to this well is 43-037-30961.

Re: Well No. Goodridge 81-2; Goodridge 72; Goodridge 81-1

In response to your letter of April 8, requested drilling reports on the above wells for the year of 1984 to present.

On October 18, 1983 we received a letter from Norman C. Stout rescinding the approval to drill on the above wells. I ceased filing reports because we no longer had approval to drill on these well sites.

Am I supposed to continue to file reports on well applications that have been rescinded? If so, what am I supposed to report?

Please let me know what is required and I will comply.

Sincerely,

Jill Johnson

Dear Ms. Johnson:

RE: Wells in Sec.7 and 8, T.42S, R.19E, San Juan County, Utah.

Upon receipt of several Sundry Notices dated May 1, 1985, the subject well files were referred to me for action because it appears that there is still some misunderstanding concerning these wells. To help clear up any problems, I have listed in the attached summary the specific wells, their histories, the documents on file with this office and the information required from you. The intended action to be conducted by the Division is also listed.

Your submitted sundry notices requesting extensions of approval to drill the referenced wells are being returned to you unapproved. It is not my intent to burden you with a lot of additional paperwork; however, I am concerned that when approval to drill is given, operations should commence within a reasonable length of time. I feel that all three of the subject wells were allowed adequate time for commencement of drilling operations and that extensions of approval to drill should not be allowed without proper justification. Therefore, if the information requested in the attached summary is not received, the Division will take action as indicated.

Thank you for your consideration. If you have additional questions concerning this matter, please contact me at this office.

Sincerely,

Well No. Goodridge 72, Sec.8, T42S, R.19E:

HISTORY:

Original application to drill was approved in December, 1979. No action was taken to drill well and because of excessive time delay in commencing drilling operations, approval was rescinded in October, 1983. A second application to drill was approved in December, 1983. No other action has been taken with this well.

DOCUMENTS ON FILE:

Since the current approval was given in December of 1983, one sundry notice dated February 24, 1984, has been received stating that "the well is capped."

INFORMATION REQUIRED:

Because the well has not been spudded, a notice should be submitted indicating an approximate date when work will begin.

INTENDED DIVISION ACTION:

Because of excessive time delay in commencing operations, the Division will take action to rescind approval to drill unless this office receives a firm indication from you that activity will commence in the near future. In addition, if approval is rescinded, the Division will consider withholding approvals on future drilling applications until work has begun on the other wells listed in this attachment.

Well No. Goodridge 81-1, Sec.8, T42S, R.19E:

HISTORY:

Application to drill was approved in November, 1983. Notice of spudding was received from you on January 12, 1984. No other action has been taken.

DOCUMENTS ON FILE:

A notice of spudding was received as mentioned above. A sundry notice dated February 25, 1984 is also on file stating that the well has not been drilled.

INFORMATION REQUIRED:

A notice should be submitted verifying whether or not the well has been spudded. the notice should additionally provide a date when operations are expected to resume.

INTENDED DIVISION ACTION:

Depending on the status of well (spudded or not), the Division will take action to either rescind approval to drill or to issue plug and abandonment directives unless this office receives a firm indication from you that activity will commence in the near future.

Re: Wells in Section 7, 8, T 42 S R 19 E San Juan County, UT

In response to your letter of May 9, 1985 regarding rescission of approval to drill. Neither of the three wells have been drilled at this time.

As indicated in an earlier letter, we thought the approval had already been rescinded. In order to save paper work on both sides, perhaps it is best that approval be rescinded.

I am sorry for the confusion. At this time I can not say when work would start on these wells. If we decide to drill these wells at a later date, I will submit a new application to drill for your approval.

Sincerely,

Jill Johnson
